BRINGING TOGETHER THE HOSE COMMUNITY THIS OCTOBER!

Be part of the Hose + World Americas Conference & Expo to take place on October 25th & 26th, 2022 at the Lyondell-Basell Center for Petrochemical, Energy, & Technology (CPET) in Pasadena, TX. The dynamic and interactive event will give attendees the opportunity to network with the leading minds driving ahead innovation and excellence in the field of industrial hoses and related equipment use, maintenance, and repair. Featuring an exhibition and a technical conference, the event will have something to offer for everyone, including manufacturers, distributors, service providers, EPCs, and end users.

During the exhibition, manufacturers, suppliers and distributors will have the chance to showcase their latest products, technologies, services and capabilities, while simultaneously forming new business relationships and reaffirming old ones. The technical conference will feature hose experts from various sectors.

Hose + Coupling World Americas is also thrilled to announce the appointment of Fred Schweighardt of airgas, an Air Liquide company, as Chairman for the 2022 Hose + Coupling World Americas Conference. Fred has been an active member of the Steering Committee and was an asset in building previous conference programs. The Hose + Coupling World Americas team looks forward to having Fred's knowledge, experience, and expertise in building an informative conference program, this year.

A MESSAGE FROM THE CHAIRMAN

It is my pleasure to act as the Chairman of the 2022 Hose + Coupling World Conference and Exhibition. This is an important event for people across a variety of industries including oil & gas, chemical & petrochemical, and power generation to network, share knowledge and learn something new.

Professionals from all sides of the hose and coupling industry will come together to discuss experiences, share insights and work to resolve common challenges. Attendees will have an opportunity to meet experts in fields as diverse as material selection and specification, cryogenic applications, high/ultra-high-pressure applications, testing, installation and inspection, hydraulics, hose safety, and more.

Presentations on topics from new technology and materials to avoiding coupling failure will be given by expert end users, EPCs, manufacturers and distributors. With the demand for more and more energy driving operational and producing companies into more difficult surroundings—for example, environments with high corrosion factors, extreme temperatures (either cold or high) and lower depths—it is more important than ever to discover and inspire the innovations that will carry us forward into the future.

If you are an expert in one or more of the topics included in the preliminary conference program, there may still be time for you to participate at the event. Delivering a presentation or joining a panel of experts is not only hugely rewarding, but also a great way to initiate a conversation.

Along with the 2022 Hose + Coupling World Steering Committee, I am happy to present the preliminary conference program for the Hose + Coupling World Conference & Expo – one that will challenge you to learn more about the role of hoses and couplings in a wide variety of critical applications.

See you at the 2022 Hose + Coupling World Conference & Expo!

Sincerely,

Fred Schweighardt
Director of Business Development - Advanced Fabrication Markets - Airgas, an Air Liquide company

STEERING COMMITTEE

Gilbert Alonzo, *Technical Consultant – Mechanical Engineer – Sullexis*

Hailing An, *Subsea Engineer – Chevron*

Eric Blazej, *Industrial Distribution Sales Manager – Proco Products*

Frank Caprio, *Corporate Trainer and Major Market Specialist – Hose Master*

Andy Christmas, *Business Development Manager – McGill Hose & Coupling*

Blaise Cordier, *Quality Assurance Interim Team Lead, Facilities and Projects – Chevron Energy*

Jim Daniels, *President & COO – Mid-States Sales*

Gordon Duff, *Senior Vice President – RYCO*

Mike Harvey, *VP/General Manager Manufacturing – Flexaust*

Chris Holder, *Operations Manager – Singer Equities*

Rob Huber, *Commercialization Manager – Gates Corporation*

Gobind Khiani, *Fellow, Piping / Pipelines / Control Systems – Enbridge*

Brent Lilly, *Vice President, Sales & Marketing – PTCoupling*

Rob Lyons, *President – TIPCO Technologies*

Prashant Malik, *Director – Barry-Wehmiller Design Group*

Molly Alton Mullins, *Executive Vice President – NAHAD*

John O'Donnell, *President – IDCO Co-op*

John Owens, *Hydraulic Hose Technician/Supervisor – NACC*

Rick Pitman, *CSP, Senior Vice President Environmental, Safety, Health and Transportation – HyrdoChemPSC*

Jim Reilly, *Market Manager Downstream – GHX Industrial*

Azael Resendiz, *Senior Design Engineer – Caterpillar Inc.*

Karina Robinson, *Market Director, Industrial Hose for North America – Continental*

John-Paul Schmidt, *USGC Regional Piping Focal Point – Dow Chemical*

Joanna Truitt, *Director of Training and the Hose Safety Institute – NAHAD*

Susanna Vandenberg, *Marketing Manager – Flexaust*

The Hose + Coupling World Americas Conference Chairman, and Steering Committee invite presentations to be made at the event on a wide variety of topics related to hoses, couplings, fittings and accessories in the industrial flow control industry. Experts from all areas of the hose and coupling industry – including end users, EPCs, material experts, manufacturers and distributors – are encouraged to submit an abstract for a technical paper or discussion-based workshop to the Steering Committee for review.

Make a Technical Presentation or Participate in a Discussion-based Session

Hose and coupling experts are invited to submit an abstract for a detailed PowerPoint presentation, discussion-based workshop proposal or technology demonstration. If you would like to make a presentation during the conference, please submit a 250-500 word abstract outlining the topic and material to Conference Coordinator, **Sarah Bradley (s.bradley@kci-world.com)**, to be reviewed by the Steering Committee.

Abstract Submission Guidelines

- 250 to 500 words
- Include a relevant title
- Outline presentation topic, scope of discussion & relevant keywords
- Must be technical in nature; commercial content will not be accepted
- Please include your name, job title, company, and contact details
- Please email you abstract to Conference Coordinator Sarah Bradley (s.bradley@kci-world.com) by April 15th, 2022.

Potential Abstract Topics

TECHNOLOGY AND MATERIALS

- New technology and innovation
- Material selection
- Maintenance and repair solutions
- High/Ultra high-pressure materials
- Flexible metallic materials
- High integrity hoses and couplings

APPLICATIONS & SECTORS

- Subsea & marine
- Power generation
- Oil & gas
- Chemical/petrochemical
- Pharmaceutical
- Agriculture
- Food & beverage
- Water & wastewater
- Pulp & paper
- Solids & slurries
- Cryogenic applications
- Severe service applications

GENERAL INTEREST

- Avoiding high pressure coupling failure
- Distributor & supplier relationships
- Testing and standards
- Data availability and responsibility
- Hose safety
- Environmental considerations
- Hose asset management
- Value-added distribution & services

HOSE + COUPLING WORLD CONFERENCE & EXPO

October 25th - 26th, 2022
San Jacinto College Center For
Petrochemical, Energy, and Technology
Pasadena, Texas

EXHIBIT AT THE HOSE + COUPLING WORLD AMERICAS 2022 EXPO!

The conference will be complemented by the exhibition, where exhibitors will be on-site to answer questions, provide information and showcase the latest in hose technology. Manufacturers, suppliers and distributors will present their latest products and establish relationships for the years ahead. Participants can expect to encounter a high-level of expertise and the opportunity to network in an informal and social atmosphere. The event is designed to initiate the free exchange of ideas, practical information and firsthand experience. Register online to walk the expo floor, it is free!

EXHIBITION RATE:

10ft x 10ft booth USD \$4,500
10ft x 20ft booth USD \$8,750

Price includes pipes, drapes set-up and basic stand furniture package but excludes electricity
